Easily Identify Patients for eVox

Identifying patients that may benefit from an eVox assessment is as easy as 1-2-3!

Step 1: Have patients complete this [form](#) as part of their intake process

Step 2: Give qualifying patients the eVox Brain Map [trifold](#)

Step 3: Book qualifying patients for an eVox appointment

Clinical Research Updates.

2019 Alzheimer's Disease Facts & Figures

Every year, the Alzheimer's Association issues a report on Alzheimer's facts and figures. This year's edition was released last week and stresses the importance of brief cognitive assessments of seniors in routine exams and early detection of cognitive decline.

"Early detection of Alzheimer's and other dementias provides a number of medical, social, emotional and planning benefits for affected individuals and their caregivers."

Download the full report, including a special report on Alzheimer's detection in the primary care setting, by [clicking here](#).
