Evoke Neuroscience named to Inc. 5000 List of America's Fastest-Growing Private Companies for Second Consecutive Year

Share   +1   Twitter   LinkedIn   Save

NEW YORK, Sept. 14, 2017 /PRNewswire-iReach/ -- **For the second consecutive year,** Evoke Neuroscience was ranked on Inc. magazine's annual Inc. 500|5000, an exclusive list of the nation's fastest-growing private companies. Market leader in brain assessment and training technology, Evoke Neuroscience was recognized in 2017 for achieving an impressive three-year growth rate of 537%.

"Evoke Neuroscience is honored to be named to the Inc. 5000 list for the second consecutive year," said Evoke Neuroscience CEO and co-founder, David Hagedorn, PhD. "To be included in this list is a significant achievement for Evoke and we are proud to be recognized for doing our part to spur innovation, create jobs, and drive the economy forward."

On average, the 2017 Inc. 5000 honorees achieved a three-year average growth of 481%. The companies boast an aggregate revenue of $206 billion and collectively generated 619,500 jobs over the past three years.

"We believe that everyone should have access to affordable and easy-to-use tools that measure and train brain health. Evoke's clinical solutions are making this dream a reality for patients throughout the country – from patients with cognitive concerns to elite athlete peak performance training and the military, including the US Special Operations Forces." Evoke Neuroscience co-founder and Chief Strategy Officer, James Thompson, PhD, explained. "Our steady, consistent growth as a company fortifies our mission to improve patient health and quality of life by bringing medical neuroscience out of the laboratory and into the physician's office."

Learn more about Evoke Neuroscience's state-of-the-art hardware/software system that objectively measures and trains the brain. For more information, contact Evoke Neuroscience at info@evokeneuroscience.com (mailto:info@evokeneuroscience.com).

About Evoke Neuroscience

Evoke Neuroscience (www.evokeneuroscience.com (http://www.evokeneuroscience.com/)) was formed in 2009 by research scientists, clinicians, medical doctors, and business professionals dedicated to developing and delivering the most important advances in brain science. Evoke Neuroscience believes that improving patient health starts with the brain. Their flagship product, the eVox® System, is an accessible, affordable, and easy to use tool that empowers primary and specialty care physicians to objectively measure and train the brain.

About Inc.

The Inc. 5000 is a list of the fastest-growing private companies in the nation. Started in 1982, this prestigious list of the nation's most successful private companies has become the hallmark of entrepreneurial success. The list represents a unique look at the most successful companies within the American economy's most dynamic segment— its independent small and midsized businesses. Companies such as GoPro, Oracle, Square, Timberland, Microsoft, Dell, Pandora, Timberland, and many other well-known names gained their first national exposure as honorees of the Inc. 5000.

Inc. 500|5000 Methodology

The 2017 Inc. 5000 is ranked according to percentage revenue growth when comparing 2013 to 2016. To qualify, companies must have been founded and generating revenue by March 31, 2013. They had to be U.S.-based, privately held, for profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2016. (Since then, a number of companies on the list have gone public or been acquired.) The minimum revenue required for 2013 is $100,000; the minimum for 2016 is $2 million. As always, Inc. reserves the right to decline applicants for subjective reasons. Companies on the Inc. 500 are featured in Inc.'s September issue. They represent the top tier of the Inc. 5000, which can be found at http://www.inc.com/inc5000 (http://www.inc.com/inc5000).
